

PLEYADE ERASMUS PROGRAM

Pleyade - Erasmus program for the final year of nursing students and the Pleyade-certified nurses in the Ambruzzo region.

On our Italian page of our website (<https://www.eduployment.nl/?lang=it>) you can find information about our Erasmus program. We are taking part in the Erasmus program for non-graduated nurses, as well as the Erasmus program for newly graduated nurses. We also welcome qualified nurses with experience outside the Erasmus program.

For details about the contract and salaries, I refer to the attached annex. All our contracts are based on direct employment with our organization, the Pleyade health care foundation and full-time contracts. The salaries and secondary employment conditions are in accordance with the national collective labour agreement for care, nursing and home care (VVT) established by the Dutch government.

All Erasmus students we offer free living space and free hot meal on the internship days. In addition, after the internship we pay a contribution of 150 to each Erasmus trainee in travel expenses. We are expanding the financial part with a free accident and liability insurance.

Participation is possible for the last year of nursing students, who do an internship of at least 6 months prior to the diploma.

For the graduated nurses who use the Erasmus after the diploma program, we use a minimum placement of 9 months. We give this Erasmus group a financial compensation of 300 for the cost of living during the first language course that precedes the Erasmus internship. The necessary language training is for free, as well as the possible necessary housing during Dutch language training.
